A website-ready pack of outreach pages with clearer visual hierarchy, action cards, and room for web placement or screenshot use.

## 1. Bank Outreach

Subject: Structured Housing Development Opportunity

We are building a community of 50 homes for working women in South Africa who fall between government housing and private affordability.

These are women who work, contribute, and carry families - yet remain locked out of safe, dignified housing.

Our project is already in motion, built on structured planning, committed members, and a phased development strategy.

We are currently raising early-stage capital and strategic partnerships to secure land and begin development.

We would value the opportunity to explore how you can be part of building this.

Warm regards,  
Revolution of Wallets Foundation

We are seeking structured financial partnership and would be happy to share our phased model and projections.
